408 STATE STREET, BROOKLYN, N. Y.,

APRIL 25TH, 1872.

This is the Catalogue of a COLLECTION, and not of a promiscuous lot. Excepting from lots 1 to 22, and from lots 1161 to 1165 inclusive, there are no duplicates unless especially mentioned.

The attention of Collectors is particularly directed to the Greek and Roman Coins, the Washington and Colonial Pieces, and the unbroken Series of Medals of the Kings of France, by Caque, the result of years of arduous labor. Among the Numismatic and other books, will be found many of interest and value, wherewithal having the necessary qualification of *scarcity*. The Autographs and plates accompanying them should serve to complete some yet unfinished series.

On the whole it is not often that a collection of such general interest is offered. The complete series of Army Corps Bages, *in silver*, embraces *all* of the Corps who received such insignia, and is the first set yet offered for public competition. The Numismatic relics of General Scott embrace many desirable specimens.

Fearing that the pieces might be over described, MR. CLEVELAND has left the whole matter in my hands, and I trust that the representation will be found satisfactory to collectors.

EDWARD COGAN.
